Synopsis: In this story we are guided through the relationship of Amélia and Duarte, two people that felt out of love and are trying to cope with the feelings that come after a relationship has ended. Their relationship has the shape of an archive box and their contents illustrate the story about their breakup. We are guided through their separation as they try to divide, destroy and erase the memories of each other. The film is made in pixilation and stop-motion and has a Technicolor feel of the 50s, portraying not only the surrealism of their actions, but also providing an ironic chromatic impression about the end of love.

## Mónica Santos

Mónica Santos is a multifaceted author with two Sophia awards from the Portuguese Film Academy and a nomination for the César from the French Film Academy.

With a unique artistic vision, she builds universes that reinvent reality, giving them a poetic and surreal look that unsettles our perception.

After completing her master's degree at the Royal College of Art on a Gulbenkian scholarship, she worked in various film genres. Nowadays she divides her time between film directing and art direction.

The short films "Amélia & Duarte" and "Entre Sombras", which she co-directed, combine animation techniques with real images and have won national and international awards.

She is a member of the Portuguese Film Academy and the American Film Academy - Oscar.

"Alma" won several awards, and the film "O Casaco Rosa", based on the fascist police inspector, was recently released, as was "Palma", a story about mourning with surreal undertones.
